## Guidance for Establishing Personal Weather Minimums

**CIRRUS**  
AIRCRAFT

Customer Name \_\_\_\_\_

Flight Instructor Name(s) \_\_\_\_\_

General Flight	1	2	3	4	5	Your Rating
Years Actively Flying	> 10 Years	6-10 Years	2-5 Years		< 2 Years	
Last Recurrent Training Event	< 6 Months		6-12 Months		> 12 Months	
Certificate Held	ATP or CFI	Com / Inst	Pvt / Inst	Private Pilot	Student Pilot	
Total Time	> 2000	1000-2000	750-999	500-749	< 500	
Hours Logged in Last 12 Months	> 200	150-200	100-149	50-99	< 50	
Hours in Cirrus in Last 90 Days	> 50	35-50	25-34	10-24	< 10	
Pilot Mishap in Last 24 Months				Incident	Accident	
Cirrus Landings in Last 30 Days	> 10	6-9	3-5	1-2	0	
Total						

**Age:** Add 2 points for 65 or older

**Time to Private License:** Add 2 points for 100+ hours

**Time to Complete Transition Trng:** Add 2 points for 30+ hours

**Crew:** Subtract 1 point for flying with licensed pilot

**Training:** Add 2 points for not completing Cirrus Transition Training

**Category:** Category  is not applicable during first 100 hours in type

### General Pilot Category

 > 22  
 14-22  
 < 14

Instrument Flight*	1	2	3	4	5	Your Rating
Years Actively Flying IFR	> 5		1-5		< 1	
Hours Flown IFR in Last 90 Days	> 35	25-35	10-24	5-9	< 5	
Simulated/Actual Inst Hours in Cirrus in Last 90 Days	> 3		1-3		< 1	
Inst Approaches in Last 90 Days (Coupled)	>4		1-4		0	
Inst Approaches in Last 90 Days (Hand Flown)	>2		1		0	
Received Avionics-Specific IFR Training from CSIP/CTC	Yes				No	
Total						

**Crew:** Subtract 1 point for flying with licensed pilot

**Training:** Subtract 2 points for completing avionics specific IPC from CSIP/CTC in last 12 months

**Category:** Category  is not applicable during first 100 hours in type

**\*Applicability:** Instrument flight is strongly discouraged by Cirrus Aircraft unless the pilot has completed an IPC in type/avionics

### Personal Weather Minimums

Current Pilot Capability	Wind (kts)	VFR Minimums	
		Day	Night
	Total: 15	5000' Ceiling 10 SM Visibility	5000' Ceiling 10 SM Visibility
	X-wind: 5		
	Gust: 5		
	Total: 20	3000' Ceiling 10 SM Visibility	5000' Ceilings 10 SM Visibility
	X-wind: 10		
	Gust: 10		
	Total: 35	3000' Ceiling 5 SM Visibility	5000' Ceilings 10 SM Visibility
	X-wind: 20		
	Gust: 15		
Instructor Recommendation (If Different)			

Current Pilot Capability	IFR Approach Minimums
	1500' Ceiling 3 SM Visibility
	500' / 2 SM Above Published Approach Minimums
	Published Approach Minimums
Instructor Recommendation (If Different)	

### Flight Training Plan

Cirrus Aircraft strongly believes in the value of regular recurrent training. Cirrus' network of CSIPs and CTCs are experts in Cirrus flight training and we encourage every Cirrus pilot to use an active CSIP or CTC for their recurrent training.

I plan to conduct my next Cirrus recurrent training event with a Cirrus Training Partner on the following date:

Training Date

I am opting out of Cirrus' recommended recurrent flight training program.

### Instructor Recommendations for Future Flight Training

#### Training Due Dates

The following are the due dates for upcoming training events (if applicable)

☐ 90 Day Recurrent Check  
☐ 6 Month Recurrent Check  
☐ Flight Review  
☐ Instrument Proficiency Check  
☐ Medical Certificate  
☐ Icing Awareness Course

### Terms of Training

I, the undersigned, have read, understood, and agree with the following:

Recurrent training is not inclusive of all the knowledge and skill required for safe flight. I must comply with regulations, exercise sound judgment, and maintain a high level of flying proficiency in order to minimize the risks associated with flight.

Even if properly rated, safely flying under Instrument Flight Rules requires peak levels of skill, sound decision making, and good risk management skills. Many IFR skills degrade over periods of inactivity and each pilot must assess risks for individual flights considering their proficiency required to handle forecasted weather, airspace, and other challenges that may arise. Pilots who desire to fly IFR are strongly encouraged to complete an IPC in 6 month intervals, regardless if IFR currency requirements per regulations are complied with.

I acknowledge that for my continued proficiency and safety, Cirrus Aircraft strongly recommends that all pilots conduct recurrent training in accordance with the current edition of the Cirrus Syllabus Suite from an approved Cirrus Standardized Instructor Pilot (CSIP) or Cirrus Training Center (CTC).

I acknowledge that my instructor has only observed my flight proficiency during this training for the tasks marked as satisfactory or unsatisfactory and that the tasks required by this training course may not be inclusive of all the knowledge and skill that is required to safely fly under VFR or IFR.
